Thanks for the welcome. I will be uploading a file to Paranet
concerning my possible abduction. Michael Corbin says he will post it
to the generl libraries, take a look at it and let me know your opinion
on it. Budd Hopkins is aware of it and thought it might warrant
further consideration.
Again, thanks for the welcome.

Wade

Hello Clark, just looking at this board for e first time tonight on
march 10 & saw your message. I donn't know why the name Tau Ceti came
to me--it was last yea in March. I just woke up saying the words
over and over. I thoug Tau Ceti sounded Egyptian. I didn't even
know the correct elling (tah setti sounded good enough at the me).
Finally, I asked my husband abouit and he said it sounded ke one
of the stars in the stellation Cetus to him. He had a dusty old
astronomy book from 1953. Sure enough, there it was. Later I learned
that Marjorisher listed Tau Ceti as one of the planets in that star
drawing Betty Hill did. I freaked a That's all I know. Write
again on the Ariz. Paranet. (602) 994-9882.

Maybe they wanted you to get in touch with me! <g>
Actually, Tau Ceti has come up in a number of cases, including
the Betty & Barney Hill case. (It was depicted in their star
map.)

Also the IRAS (infared astronomical sat.) had Tau Ceti included
in its survey of stars that may have orbiting planets or
protoplanets. It seems like a good candidate and its only about
12 light years away.
